Subject : Typhoon in Japan, transports affected

Dear Customers and Partners,

Yesterday Japan was affected by a very huge typhoon N° 21.

The consequences are numerous; a major damage occurred in the Kansai International Airport, the Airport is closed right now.

Sea shipment are also affected; some warehouses of forwarders are flooded, and vessels are delayed; deliveries could be affected in the next few weeks.

It's an act of god, JST will not be held responsible for shipping delays

Our customer service did everything possible to maintain a good level of deliveries, and will keep you posted from day to day.

We appreciate your understanding.

Jean-Luc GOLOVKO

Sales & Marketing Director
