GAMME SPRINGLOCK

The image shows several black multi-pin connectors and cables. One connector is prominently featured in the foreground, showing its multiple pins and a locking mechanism. Other connectors are visible in the background, some with different colored housings (grey and black). The cables are black and appear to be made of a braided material. The background is white.

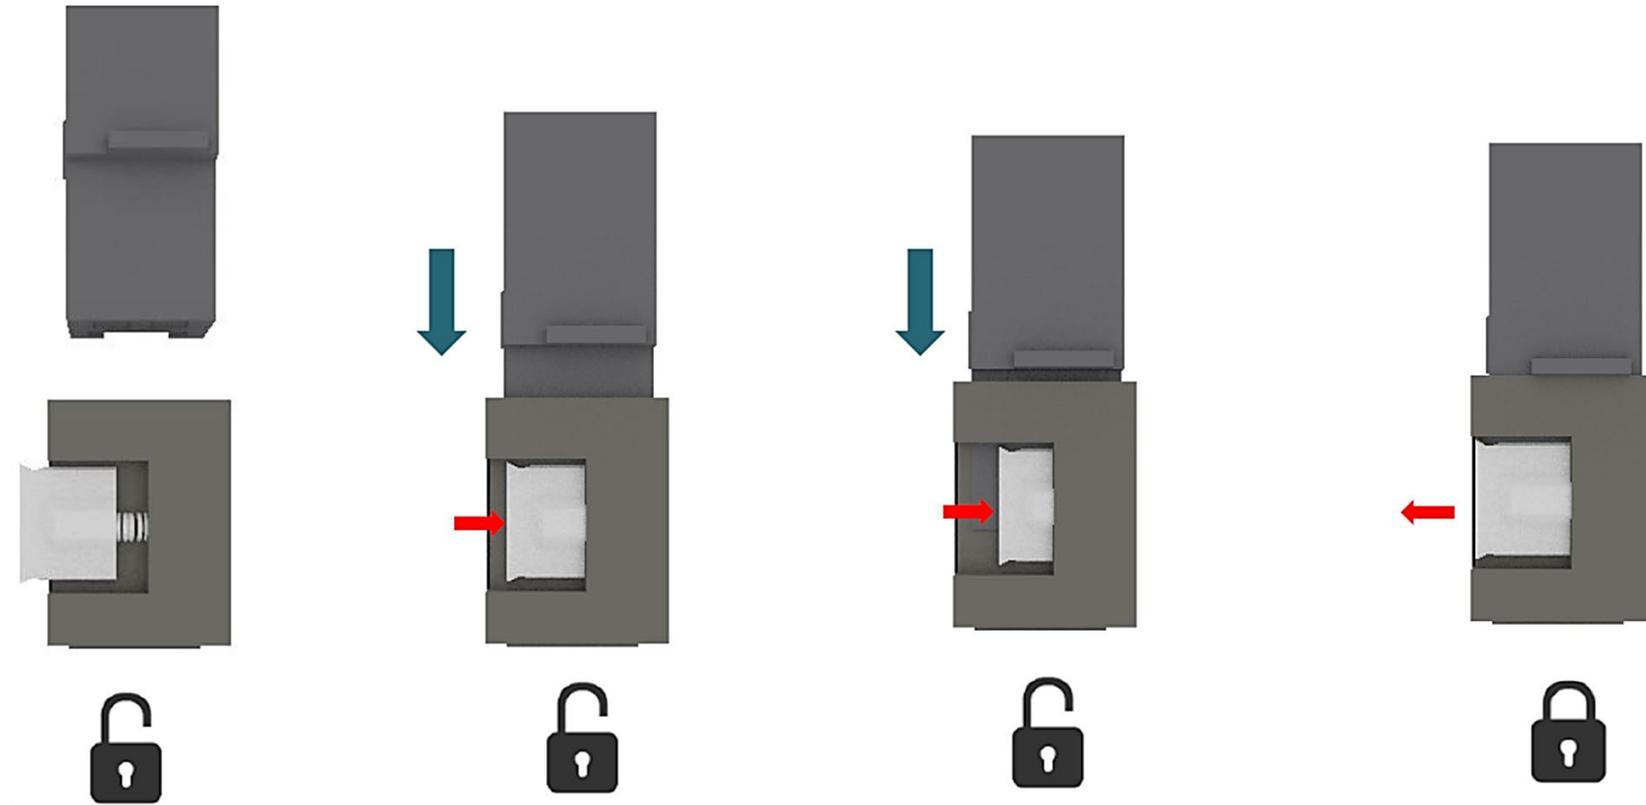

**QU'EST-CE QU'UN
CONNECTEUR
SPRINGLOCK?**

QU'EST-CE QU'UN CONNECTEUR SPRINGLOCK?

Un connecteur dit **springlock**, est doté d'un **mécanisme** qui utilise un **ressort** pour **sécuriser** la connexion.

La technologie de fonctionnement repose sur un **mécanisme à ressort** qui maintient les contacts en place, assurant ainsi une connexion **stable** et **fiable**.

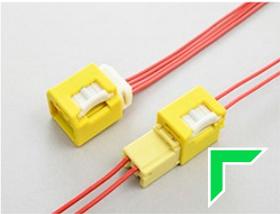

Ce type de connecteur est souvent apprécié pour sa **facilité** d'utilisation et sa capacité à **résister** aux **vibrations**, ce qui le rend idéal pour des applications dans des **environnements exigeants**.

A mechanical assembly, possibly a springlock, is shown against a white background. The assembly consists of several black plastic components, a metal spring, and a white plastic component. A semi-transparent green gradient box is overlaid on the center of the assembly, containing the text "SPRINGLOCK JST" in a bold, black, serif font. The text is centered within the green box and is clearly legible against the background of the assembly.
